FRONTEND DEVELOPER

SOFTWARE ENGINEER

Creative Front-End Developer offering 2+ years of experience providing high-impact web solutions for diverse industry organizations. Skilled in designing, developing and testing multiple web-based applications incorporating a range of technologies. Aspiring to combine broad background with strong technical skills to excel as a Front-End Developer.

Work Experience

Junior Front-end Developer at IXnote Nig LTD.

- Developed UX workflows and wireframes.
- Built feature templates in HTML and CSS.
- Designed dynamic and browser compatible pages using HTML5, CSS3, and ReactJs.
- Ensure efficient web development by supporting designers and app developers while resolving website performance issues.
- Worked on frontend development of a project named Student Management System.

Front-end Developer Intern

ZURI   2019 - 2019

- Single-handedly and competitively recruited smart designers, programmers and devops during the team build-up stage of the internship.
- Developed new features and applications using React.
- Development of custom workflows, web parts, content types, event handlers, and timer job definition.
- Optimized components for maximum performance across a vast array of devices and browsers.
- Created prototypes from low-fidelity to high fidelity.
- Collaborated with design, product, and backend teammates to build, test, and maintain the BettaWedding Web/Mobile Application we built as our final project during the internship.

Certification

- Sololearn
